Fireworks Stand Application Checklist (staff use only)

- _____ 1. A copy of a current State of Kansas sales tax certificate.
- _____ 2. A certificate of general liability insurance in the amount of at least \$1,000,000; Saline County shown as additional loss payee.
- _____ 3. Proof that the tent fabric meets the flame propagation performance criteria of Test Method 2, as required in NFPA 701, *Standard Methods of Fire Tests for Flame Propagation of Textiles and Films*.
- _____ 4. A dimensioned floor plan drawn to scale showing aisles, entrances/exits, display areas, location of fire extinguishers and telephone, and lighting.
- _____ 5. A dimensioned site plan showing the following:
 - _____ a. The location of the sales structure showing the setbacks to all property lines and all other buildings. (100' from side and rear property lines, 50' from adjacent rights of way and any tent, stand, building or fireworks storage area; 10' from any vehicle parking area.)
 - _____ b. The location of any on-site storage of fireworks. The location (address) of any off-site storage and an indication of whether storage is year round or temporary. If temporary, length of time.
 - _____ c. The location of all on-site trash receptacles.
 - _____ d. The location of all exits from the structure (minimum of three required).
 - _____ e. Two U.L. listed 10-pound 4A:80B:C fire extinguishers must be accessible from within the sales structure. If the structure is smaller than 800 sq. ft., one 10# ABC fire extinguisher may be provided.
 - _____ f. The location of any other fuel or heat sources such as auxiliary generators, gasoline storage, etc. (Stand must be at least 50' from any of these sources.)
 - _____ g. The location of the toilet facilities and potable water for employees.
 - _____ h. A parking plan for the site drawn to scale which shows ingress and egress, parking spaces and parking barriers to be used around the sales structure. Parking area must be 10' from fireworks stand. Parking spaces shall be numbered on drawing, one 9'x12' space required for each 200 sq. feet of gross floor area, 24' driving aisles; minimum of 5 parking spaces required.
 - _____ i. The location of no more than two, 2'x4' ground signs; three are allowed for corner lots.
- _____ 6. Signature of a representative of the applicable Rural Fire District indicating that the floor plan and site plan have been reviewed by the fire district and approved.
